

4BD4FH Block

Castings with couplings for construction equipment

A cast iron block designed to allow a quick connection and disconnection of attachments for skid steer loaders and other construction machines.

The FFH cartridges share all the same benefits of Connect Under Pressure technology.

The decompression feature allows connection of the circuit with residual pressure on both sides.

Standard cartridges are the 1/2 FFH - M48*1.5.

For guaranteed higher flow use the 3/4 FFH - M48*1.5 cartridges instead of the 1/2, both sizes fit into the same block

The block is also available without cartridges.

Cartridges

Body Thread Size	Coupler			
	Type	Size	Female	Male
M48 * 1.5	Flat Face	1/2	FFHF-08M48	FFHM-08M48
	Flat Face	3/4	FFHF-12M48	FFHM-12M48
	Flat face	3/8	Drain Line Cartridge	4BD4FH3/8FF
	Bare Housing, no couplers			4BD4FH-BH
	Housing Complete with 1/2 couplers			4BD4FH-08
	Housing Complete with 3/4 Couplers			4BD4FH-12
